view, the first station south, there is but little land in cultivation. The face of the country is very broken and hilly, and not

likely to be extensively cultivated at any time. Lakeview is necoming well known

as a pleasure resort near Memphis. The view of the laxe from the cars is very pretty. The larg cotton farms commence a few miles south of the lake, and there are a number of them close to Walls station, which is sixteen miles south. The

next station is Lake Cormorant, just south of which there is some swamp and cans.

DeSoto comes next, and the country about this point is rich and closely cultivated.

to Clarksdale there are a number of well cultivated farms. Clarksdale is an old town with about 400 inhabitants. It is on the north bank of Souflower river, and is one of the finest cot-

flower river, and is one of the finest cotton-producing regions in the country. A gentiemen with whom I talked at the depot said the business of the town was not what it ought to be, because stores were run on most of the large places in the country and they took a great portion of the trade which ought to go to the town. This strip of land from Lakeview to Clarkedale may be est down as the richest and most closely cultivated country near Memphis. To one of those who have been in the habit of riding to and from Memphis on railroads running through

the river, being from a half mile to a mile and a half from it, as distance changes with curves or bends. The country is

very level, and is under cultivation from five to ten miles east of the river. There

are no dividing fences. The irrigating dit hes answer that purpose. All these lands are lower than the river. The large leves, covered with graze, loom up on the west side of the splendid scene. All the flue resi-

NEW ORLEANS, May 16.—Since the completion of the Louisville, New Orleans and Texas railroad a great deal has been said about the nice country through which it passes. I have never heard anyons cay just what constituted the attraction slong the route, nor have I heard fluch about the great quantity of cotton which will certainly come over that road to Memphis. During a recent trio I took a few notes, in order to learn as much as possible about the stations, etc. There are on the timetables a great many station names, but The following telegram brings good news. We like to be the bearers of pleasant tidings; we delight in the happiness of all mankind and womankind also, especially that portion who are the fortunate inhabitants of these arcient and time-worn bluffs: the stations, etc. There are on the time-tables a great many station names, but these stations are a mply platforms, from which bales of cotton can be easily placed on freight trains. There are only two or three old towns along the whole line, 4.5 miles. I shall only refer to the north and the south ends of the road. The north end,

DR. BERNHARDF WILL LEAVE US. He Closes His Office Saturday, May 30th, -Can be Consulted Entit & O'Clock p. m., of that Day. We are sorry to announce that this dis-

tinguish d son of science is about to close his office in this place. He has been instrumental in doing so much good to those whose sight is affected that we would really like to have him a permanent fixure.

We have been present on several oc-casions at his office at the Peabody Hotel, and heard the sincere outpowring of thanks from those who have been Son-fited by his skill, and we thought, surely here is something worthy of a great effort to attain—the skill which would give such relief as these patients of the doctor's had experienced. The doctor assures us that he will close

his effice in this place on Saturday, May 30th, and can be seen at his effice until 5 o'clock p.m. of that day. He desires, in this connection, to return his sincers thanks to the medical faculty and clergy

honest and honombie gonileman.

Anyone who needs the services of a
